Technical Skills

- **Programming Languages** – C++, Python, SQL.
- **Tools** – Flutter, FastAPI, Figma, MySQL and Firebase.
- **Course Work** – Data structures & algorithms, Object Oriented Programming and Database Management System.
- **Certification** – AWS Certified Cloud Practitioner.

Education

- **VIT Bhopal University** **May 2021 – May 2025**
B.Tech. in Computer Science Engineering CGPA - 9.06
- **Sai International School, Bhubaneswar** **Mar 2019 – Mar 2021**
Class XII – Science Percentage - 90 %

Work Experience

Oshin Operating System

Jun 2023 - Dec 2023

Software Developer Intern

- Designed an innovative chatbot application with an integrated automated email system, leading to a significant 30% decrease in the average response time for user inquiries and effectively enhancing customer satisfaction rates.
- Implemented the backend system, improving system reliability efficiently and contributing to majority of total data handling.
- Worked on various tech stack including NLP, Linux, python, Qt framework.

Projects

ArthroMate

ReactJS, AWS

Jul 2024

- Innovated a user-friendly medical application enabling arthritis patients to track pain with enhanced patient data collection processes reducing data entry errors.
- Streamlined healthcare procedures, decreasing report generation time by 20% which led to an increase in diagnostic efficiency.

Fasal Sahayak

Flutter, Firebase, Python

Jan 2024

- Engineered a mobile application tailored for farmers, incorporating an interactive public forum that facilitated effective issue-sharing and collaboration among all the active users.
- Integrated a ML diagnostic tool that accurately identified plant diseases from photos, improving diagnosis speed with an accuracy of 90%.

Coin Grep

Flutter, FastAPI, Python

Nov 2023

- Developed an Android app front-end using flutter framework, components for a crypto investigation tool. Enhanced user interface and experience, contributing to a 40% increase in user engagement.
- Implemented multi-blockchain support currently 17, with custom light nodes.

Achievements

- Achieved a Global Rank of 1662 in TCS CodeVita season 11.
- Attained 3-star rating on the competitive programming platform CodeChef, with personal best global rank of 93.
- Currently holding a Leetcode Contest Rating of 1772, placing in Top – 8 %.
- Secured a Global Rank of 1909 in Google CodeJam Farewell round 2023.

Leadership / Extracurricular

SIH – 2024:

- Spearheaded the creation of an application at Smart India Hackathon 2024 using Flutter; focused on improving response accuracy.
- Facilitated clear and concise discussions during project meetings and presentations.
- Resolved team conflicts by promoting mutual understanding and collaboration, leading to increased team productivity.
